AFU Bulletin

Table 1. Pages summary

SN	Name	Number	Pages allotted to each	Total pages
1	Agriculture Science Center	2	0.5	1
2	Centers	3	1	3
3	Central office	1	1	1
4	Constituent college	9	0.5	4.5
5	Directorates	6	1	6
6	Examination	1	1	1
7	Faculty	3	3	9
8	Private college	8	0.5	4
9	Teaching hospital	1	0.5	0.5
	Total			30

* Size of the bulletin: 24 cm x 18 cm (Abstract book of FGC 2023)

The formats are given below:

R. S. W. 12/11/23

Title (Title Case, Center Alignment, Bold, Times New Roman, Ft Size 14)
Name of the Institution (Title Case, Center Alignment, Times New Roman, Ft. Size 13)
----- One Line space -----

The following format is for the body of the text and is specifically for the Agriculture science centers, constituent colleges, private colleges and veterinary teaching hospital of AFU. Your content will look exactly similar in the final format as you are viewing this document. The text should be in Times New Roman font, size 12, and justified. This portion should be the focal activity of your institution, completed or ongoing and should be concise and well-written. The bulletin is meant to be concise, so you are allotted half a page to showcase your activities (exactly the same space as shown in this format). Include one image (mandatory) related to the activity with an appropriate caption. The caption should be in *Times New Roman with size 10, italicized, and in Sentence case*. Please also upload the inserted image separately in .png format so that we could process high quality image of your activity in the final format. If you encounter any confusion related to the format, or have any questions, please feel free to contact us at publication@afu.edu.np or at +9779846224000. A model of the format for the institutions listed above is provided below. You can use it as a reference.

Insect Collection of Agriculture Science Center, Ghyalchok Agriculture Science Center, Ghyalchok, Gorkhā

The Insect Collection of the Agriculture Science Center, Ghyalchok (ICAG) is an insect museum established within the Agriculture Science Center (ASC) in Ghyalchok. Housed in the center's laboratory, the museum currently hosts more than 500 specimens of different insects. It has gained international recognition for its collection of groundhoppers (Orthoptera: Tetrigidae), housing the holotypes and paratypes of seven species new to science. The museum currently features 20 display boxes onto which specimens are pinned, labeled, and exhibited. Each box is numbered, and each specimen within it is assigned a unique museum code. The collection also includes insect pests of various crops and is frequently visited by farmers. Originally, the museum was established with a participatory approach, wherein farmers could bring insect pests found in their fields for identification by taxonomists at the center. These specimens were then properly stored for future reference. The museum aims to expand its outreach by establishing collaborations with other museums, universities, and research institutions. We plan to digitize all collections in the museum and upload them to a separate website, facilitating access for students, farmers, and researchers both within and outside the university. We are open to collaborating with all colleges within the university, whereby we can exchange extra copies of specimens to enrich teaching and learning activities.

Title (Title Case, Center Alignment, Bold, Times New Roman, Ft Size 14)
Name of the Institution (Title Case, Center Alignment, Times New Roman, Ft. Size 13)

----- One Line space -----

The following format is for the body of the text and is specifically for the Central office, Office of the controller of examinations, directorates, and centers of AFU. Your content will look exactly similar in the final format as you are viewing this document. The text should be in Times New Roman font, size 12, and justified. This section should serve as the focal point of your institution's activities, providing information on completed or ongoing initiatives, as well as administrative matters. The bulletin is meant to be concise, so you are allotted a page to showcase your activities (exactly the same space as shown in this format). The text could be divided into several paragraphs.

Major Accomplished Activities of DoREX, AFU (2080/081) Directorate of Research and Extension (DoREX), AFU, Rampur, Chitwan

The Directorate of Research and Extension (DoREX) took the initiative to host the First Graduate Conference 2023 at Agriculture and Forestry University (AFU). The conference centered around the theme of "Agricultural Transformation through Education and Research," highlighting the crucial role of academic endeavors in advancing the agricultural sector. From November 23rd to 25th, young researchers gathered to share insights and discoveries across various fields, including agriculture, livestock science, veterinary science, fisheries, and forestry. With a diverse array of topics covered, the conference facilitated interdisciplinary collaboration and knowledge exchange, fostering a dynamic environment for intellectual growth and innovation. Over the course of the event, more than 100 papers were presented, showcasing the breadth and depth of research undertaken by emerging scholars in the field. DoREX's commitment to organizing such a significant academic gathering underscores its dedication to supporting the next generation of agricultural leaders and promoting sustainable solutions for global food security and environmental conservation.

Figure 1. First Graduate Conference 2023 closing

DoREX has achieved significant milestones in advancing agricultural research and outreach. DoREX has selected 14 internally funded short-term research projects and 11 long-term research projects for the faculties of AFU, promoting interdisciplinary collaboration and addressing key agricultural challenges. Through strategic partnerships with various institutions, including universities, local governments, NGOs, and INGOs, DoREX is leveraging expertise and resources to tackle pressing issues in the sector.

Figure 2. MoU signing between DoREX and AFU faculty

Moreover, DoREX's extension efforts have been particularly noteworthy, with significant investments made in enhancing infrastructure and facilities at its Agriculture Science Centers (ASCs). Notably, in ASC Ghyalchok, DoREX has taken a significant step forward by establishing a biocontrol laboratory and constructing a modern administrative building. Similarly, in ASC Palung, DoREX's focus on research and extension activities related to temperate vegetables and fruits signifies a strategic alignment with the unique agro-climatic conditions of the region. Furthermore, in its continuous pursuit of excellence, DoREX has announced calls for two long-term research projects in the ASCs and 15 short-term research projects in constituent colleges. These initiatives not only provide a platform for harnessing local expertise but also facilitate the generation of actionable insights and solutions that can address the evolving challenges facing the agricultural sector.

For Faculties:

The format of the document will be similar for the faculties as it is for the Central Office, Office of the Controller of Examinations, Directorates, and Centers of AFU mentioned above (except the pages allotted to the faculties are 3 pages each). The faculties are requested to provide details of administrative information (including the number of staffers, students), recently accomplished and ongoing activities, collaboration with other institutions, and exemplary research activities in their respective faculties. Please include 2 images per page, and also provide the images separately.
